17 .	Somisila	2x5 = 10	4/90	Reply to comment of CEA/CWC on the scheme are awaited from projeci authorities.

Captive Power Generation

53. DR. YELAMANCHILI SIVAJI: Will the Minister of POWER AND NON CONVENTIONAL ENERGY SOURCES be pleased to state the details of steps being taken by Government to encourage captive power generation?

THE MINISTER OF STATE (INDEPENDENT CHARGE) IN THE MINISTRY OF POWER AND NON-CONVENTIONAL ENERGY SOURCES (SHRI KALP NATH RAI): The existing policy do not bar the establishment of captive power plants in the private Or public sectors. Where the size of the plant is below 25 MW, the permission of the State Electricity Board is necessary; above this capacity, the concurrence of the Central Electricity Authority (CEA) is required.

The approved policy on the private sector participation in power generation, supply and distribution provides that captive power plants would be encouraged to sell surplus power to State Electricity Boards .
